

SOUTHERN JOURNAL OF SCIENCES

PUBLICATION SCHEDULE

PLANING THE PUBLICATION IN THE SOUTHERN JOURNAL OF SCIENCES

Please, use Table 1 to plan the submission of your manuscript. Table 1 represents a prediction of when a newly submitted manuscript tends to be published.

Table 1. Calendar of publication for 2022.

The first issue (June)

January	February	March	April	May	June	July	August	September	October	November	December
Green	Green	Yellow	Yellow	Red	Red	Green	Green	Green	Green	Green	Green

The second issue (December)

January	February	March	April	May	June	July	August	September	October	November	December
Green	Green	Green	Green	Green	Green	Green	Green	Yellow	Yellow	Red	Red

Definition of the colors:

Red: Editorial working time, usually no new manuscripts are accepted for this issue. It means that if you submit your manuscript in the months marked with red, they will be moved for the next issue.

Yellow: There is a good possibility that the manuscript will be moved for the next issue. Depending on the volume of papers the Journal has received until this time, if you submit your manuscript in the months marked with yellow, it might be moved for the next issue.

Green: Open submission time. It means that if you submit your manuscript in the months marked with green, they will, depending on the success of the double-blind peer-review process, be published in the current issue.

Tips to increase the evaluation speed:

a) The only email address of the Journal is southbchem@gmail.com. **The Journal does not use any other email address than this one. Be aware of fake email addresses in the name of the Journal. Any other email address different from this one is a fraud and does not come from this Journal.** Do not reply to any messages from any email different from southbchem@gmail.com.

b) Include the complete cover letter in the first submitted message.

c) Before the submission of the manuscript to southbchem@gmail.com, review it. Check to see if it follows the typical organizational structure of the Journal (Introduction, Materials and Methods, Results and Discussion, Conclusion, References);

d) Always reply to the original message that the manuscript was submitted. Do not create new messages to reply to an evaluation.

e) If the original English translation quality is not good, consider hiring a professional translator and including a translation certificate.
